Semantic Field #10

Sailing

Ship's wheel

Winch

Sailboats take advantage of wind propulsion by means of **sails**. The back and front of a **ship** are called, respectively, **aft** and **bow**. Knowing the location of the bow is important for defining two of the other most common sailing terms: **port** (left of the bow) and **starboard** (right of the bow).

Boom

Rudder

Mast

Centerboard
