

Onion Soup

The French say that this dish is a cure-all, especially when it comes to soothing **hangovers** or **unrequited love**. This **hearty soup** is easy to make and as **inexpensive** as it can be – only, it takes a little patience to watch it simmer through. For a crunchy treat, coat its surface in a thin layer of **grated cheese**, then grill it until golden brown – which the French call **gratiné**.

Bon appétit, les gars!
