

Puzzle # 22

The Chain

You have five pieces of chain, each consisting of three links. You want to make one long chain out of these five pieces. Breaking open a link costs 1 euro, while welding an open link costs 3 euros. Is it possible to make one long chain of the five pieces, if you have just 15 euros?

Birthday Cuts

The birthday cake above must be cut into eight equally sized pieces. However, you may make only three straight cuts. How can the cake be cut into eight pieces with only three straight cuts?
